# Measurement Form

**Measurements are more accurate if taken by someone else.**

Please ask someone to help take your measurements in order to assure the most accurate information.

Please note: Made-to-measure items are made up to the measurements as supplied. We accept no responsibility if they do not fit, and no refunds will be made on these items. It is your responsibility to ensure that you supply us with correct measurements. Measure carefully and check your measurements. Fill in form carefully and double check your entries.

Made-to-measure and custom items can take a while to produce. If timing is important to you, check with us for an estimated completion date when you place your order.
